# Whole Village Energy Efficiency Retrofit Pilot Project

# Quinhagak Project

- **11 buildings community-wide**
  - Focused on buildings with greatest public purpose
  - Owned by the village corporation, tribe, and municipality
- **Total installed costs: Estimated at \$230,000**
  - Includes contingency and down payment (\$70,000).
  - Annual cost savings estimated at \$50,000 annually.
  - Simple payback: just over 4 years

## Energy Efficiency Measures:

- Upgrade lighting, replace windows and doors, add insulation, upgrade to energy efficient appliances, and improve ventilation.

**Annual energy savings – Just over \$50,000\***

*\*Could be as high as nearly \$65,000.*
